

We are doing Legacy waste treatment and DBOT of Fresh Waste Facilities for various ULBs and Smart City under Swachha Bharat Mission initiatives.

ABOUT US

Earthera Sustainable Waste Management Pvt. Ltd is leading Waste Management Company in India. Earthera SWM rethinks waste challenges to provide innovative ways to manage it. Our aim is to provide best solutions to our client and create a zero waste future. We provide state-of-the art services and solutions to transform the environment management practices. Our sustainable and innovative services offer added value to society. We focus on cooperation between economy and research and are convinced that this is the right path to success in today's complex world. Together, we strive to maintain and create a liveable environment.
