ABOUT US

We are Cropwell, a company that has emerged as an overall solutions provider for the wellness of the crops and the betterment of the farmers. We are committed as a manufacturer to produce qualitative and effective agrochemicals, based on most modern and state of the art technology. With a highly qualified R&D team and a huge manufacturing unit with all modern production facilities, we at Cropwell, are striving hard to equip the farmers with such efficient ingredients that they can easily celebrate the maximum yield along with highest quality outputs. We, at Cropwell, are fully committed to adopt honesty as our main policy of doing business in all the aspects of it.
