**We Make
Your Dream
Come True**

DIRECTOR'S MESSAGE

Neha Builder has been a trusted name in the construction industry, having served clients across multiple domains with their complete satisfaction and projects that have different scales. Right after its inception, one of the most important focus has been to provide a great degree of encouragement and motivation to their employees and grow in accordance with their potential by taking care of both, their personal as well as their professional growth.

In fact, we have always tried to make sure that our employees stay in the company and continue providing their valuable services to this company. From giving the perfect kind of training to our employee to execute projects effectively and decisively, Neha Builder reputation is credited to the dedication of its employees, and I am proud to say that. I hope that we continue to grow and prosper as a company, as a team and as a family for years to come.

SAFETY & ENVIRONMENT POLICY

Since Our Establishment We do not have a single fatal accident that leads to any lose of the life. We have our own safety policies which covers almost all the requirement for the safety. We will ensure that we fully abide by the required legal requirements including adherence to labour law such as building and other Construction Act.

Safety Policy

1. Provision and enforcement of the use of personal protective Equipment (P.P.E).
2. Ensure Proper Safety Precautions for the Erection use and removal of shuttering and scaffoldings
3. Ensure Proper Barricading and delineation of Worksites.
4. We ensure that all the Safety Practices are followed during Various Construction Operations.
5. Ensure Provision of Safe access and working platforms for the workers and supervisors.
6. Provision of accommodation for workers as per norms.
7. Provision of Proper Potable Water supply arrangements for all the workers.
8. Provision of Sanitation arrangements separately for male and female workers.
9. Provision of first aid and emergency response arrangements.
10. Proper Stacking and Disposal of Waste material (including proper segregation, storage, and disposal of any toxic and hazardous wastes).
11. Use of acoustic jacket for generators to be used during construction work.
12. Ensure proper and safe storing/stacking of construction material.
13. Proper planning and sequencing of construction activities to reduce/minimize disturbance to any other work.
14. Ensure workers are supplied with appropriate personal protective equipment's including safety belts, hearing and eye protection (e.g., safety sun glasses, ear Plugs) work gloves, protective head and foot wear (e.g., helmets safety boots) high visibility clothing (reflective types for low light situations) clothing for the weather and work environment any other required clothes. Workers should also be instructed in the selection, safe use, maintenance and storage of any personal protective Equipment's Provided.
